a time to build up

toil on . . . a new school is waiting to be born

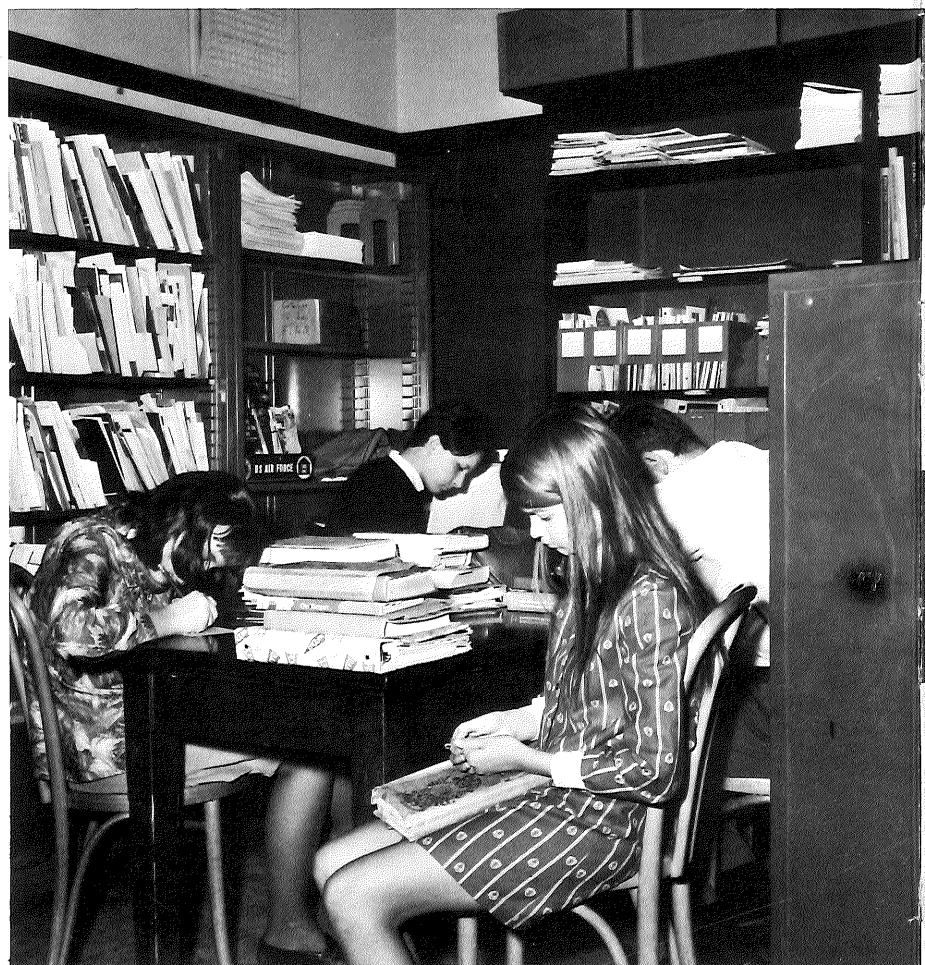

slowly but surely . . . the transition
takes place . . . a modern bulkeley . . .
from dreams to reality

a time to be born

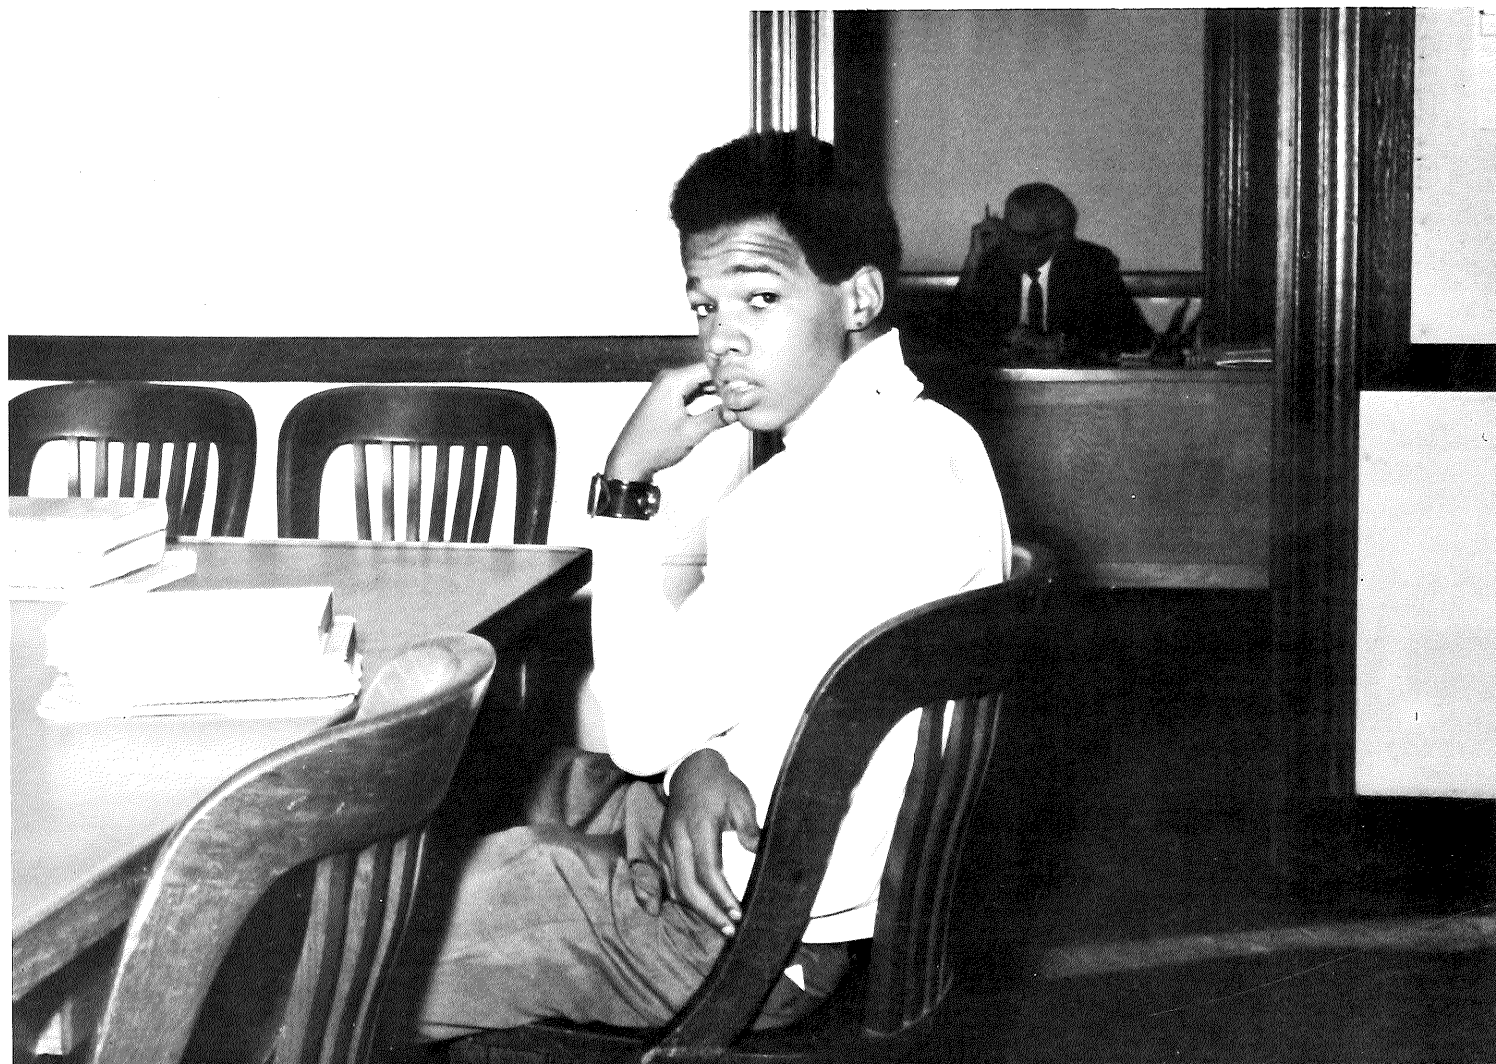

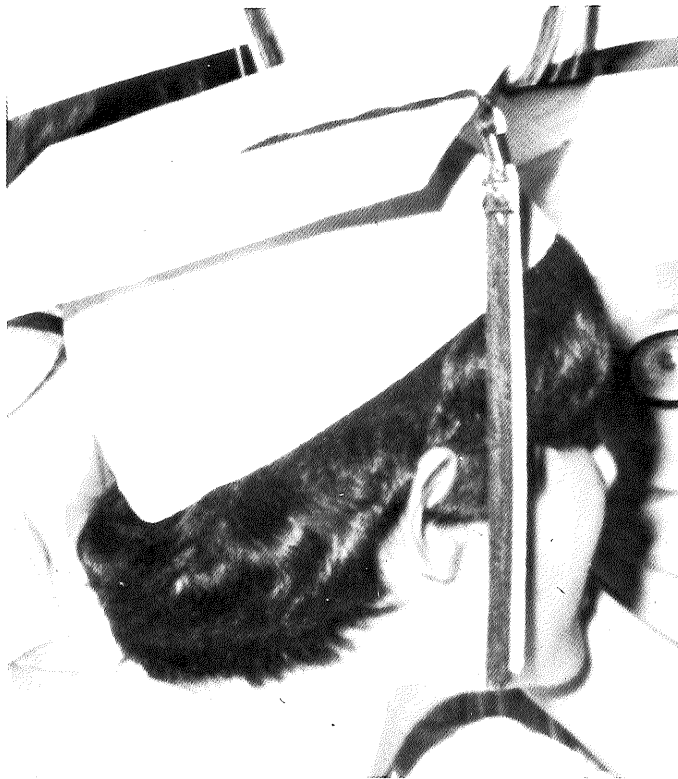

look ahead nervous freshman . . . you're on your way . . . new knowledge and experiences await you

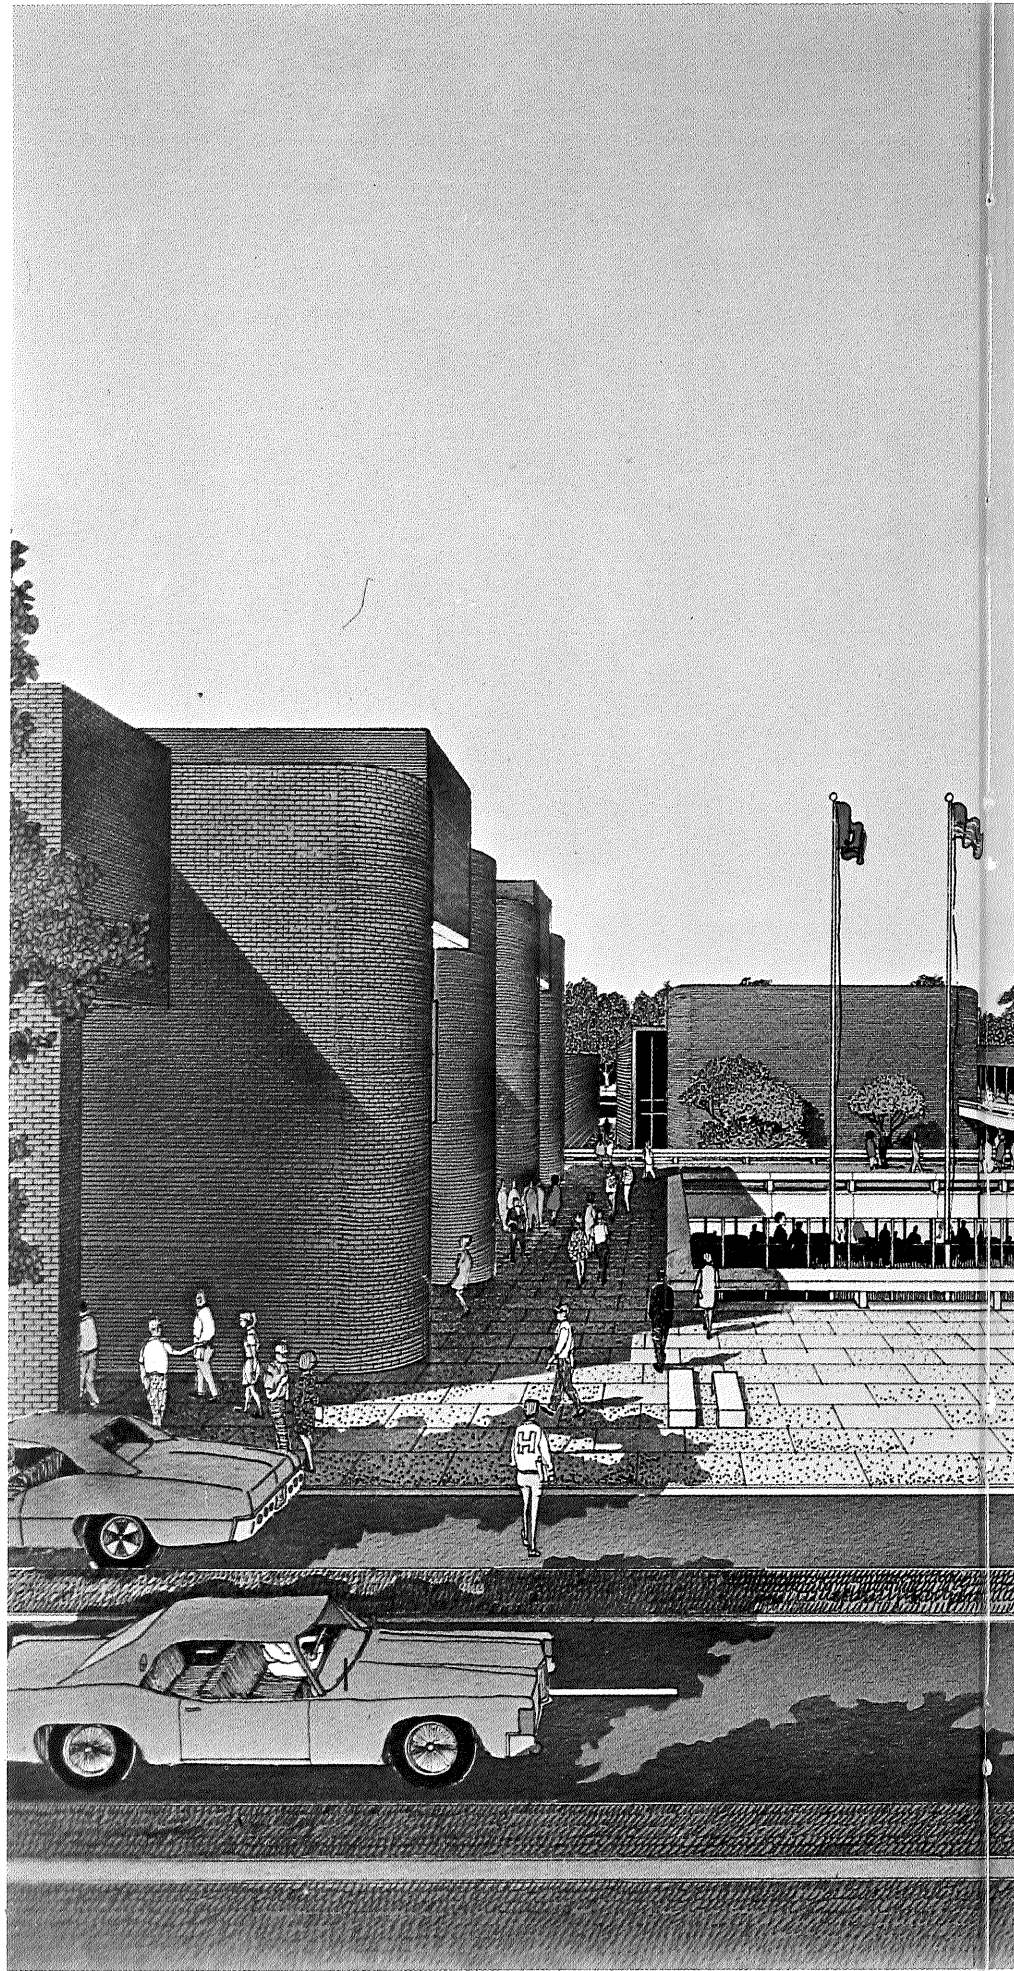

a time to die

turn around . . . turn around . . .
you're a graduate now . . . the sadness of
leaving . . . hopes for better things to come

a time to keep

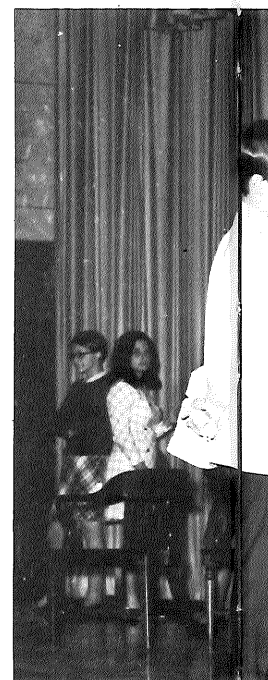

although a new building will soon be
erected . . . the tradition and the heritage
of the old bulkeley . . . can never be destroyed

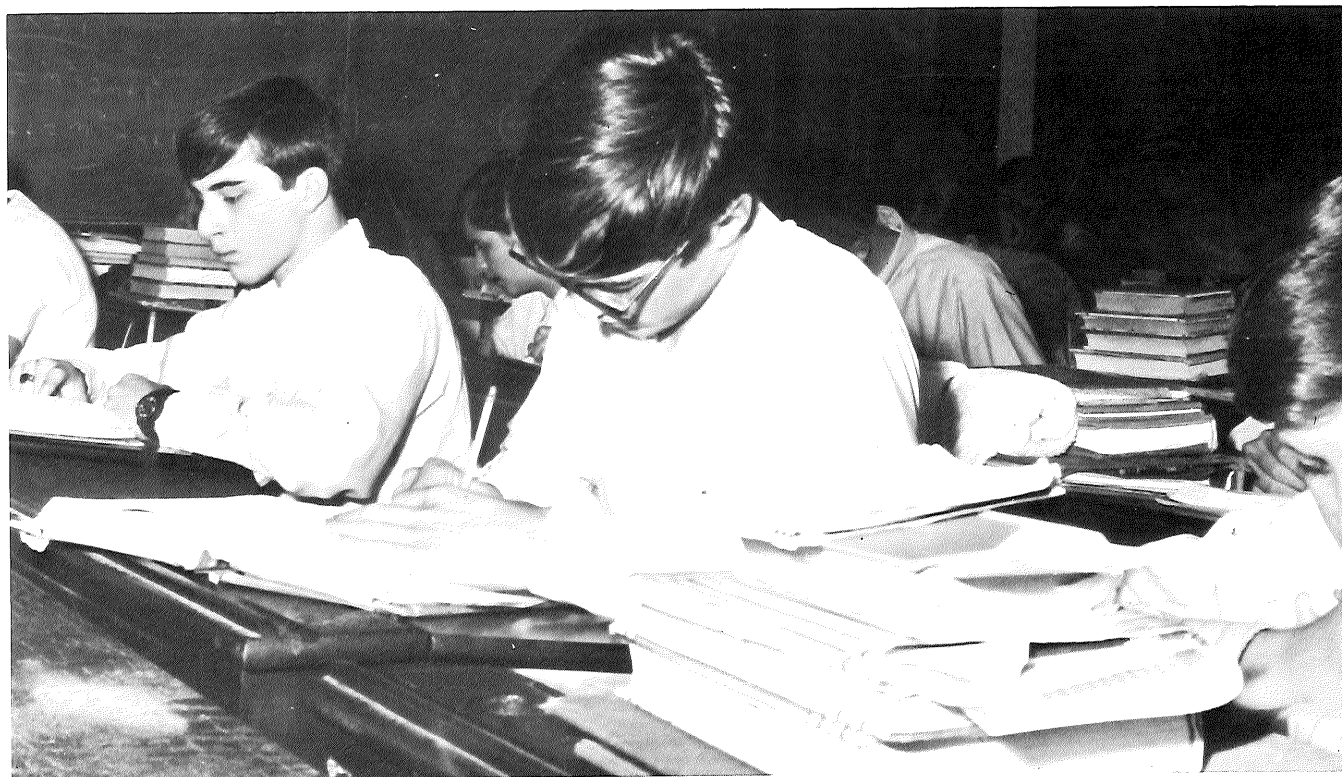

a time to plant

the seed is planted . . . knowledge
accumulates . . . minds are expanded . . .
until . . .

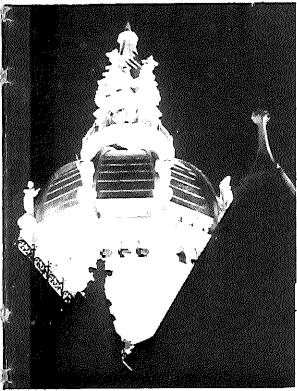

a time to reap

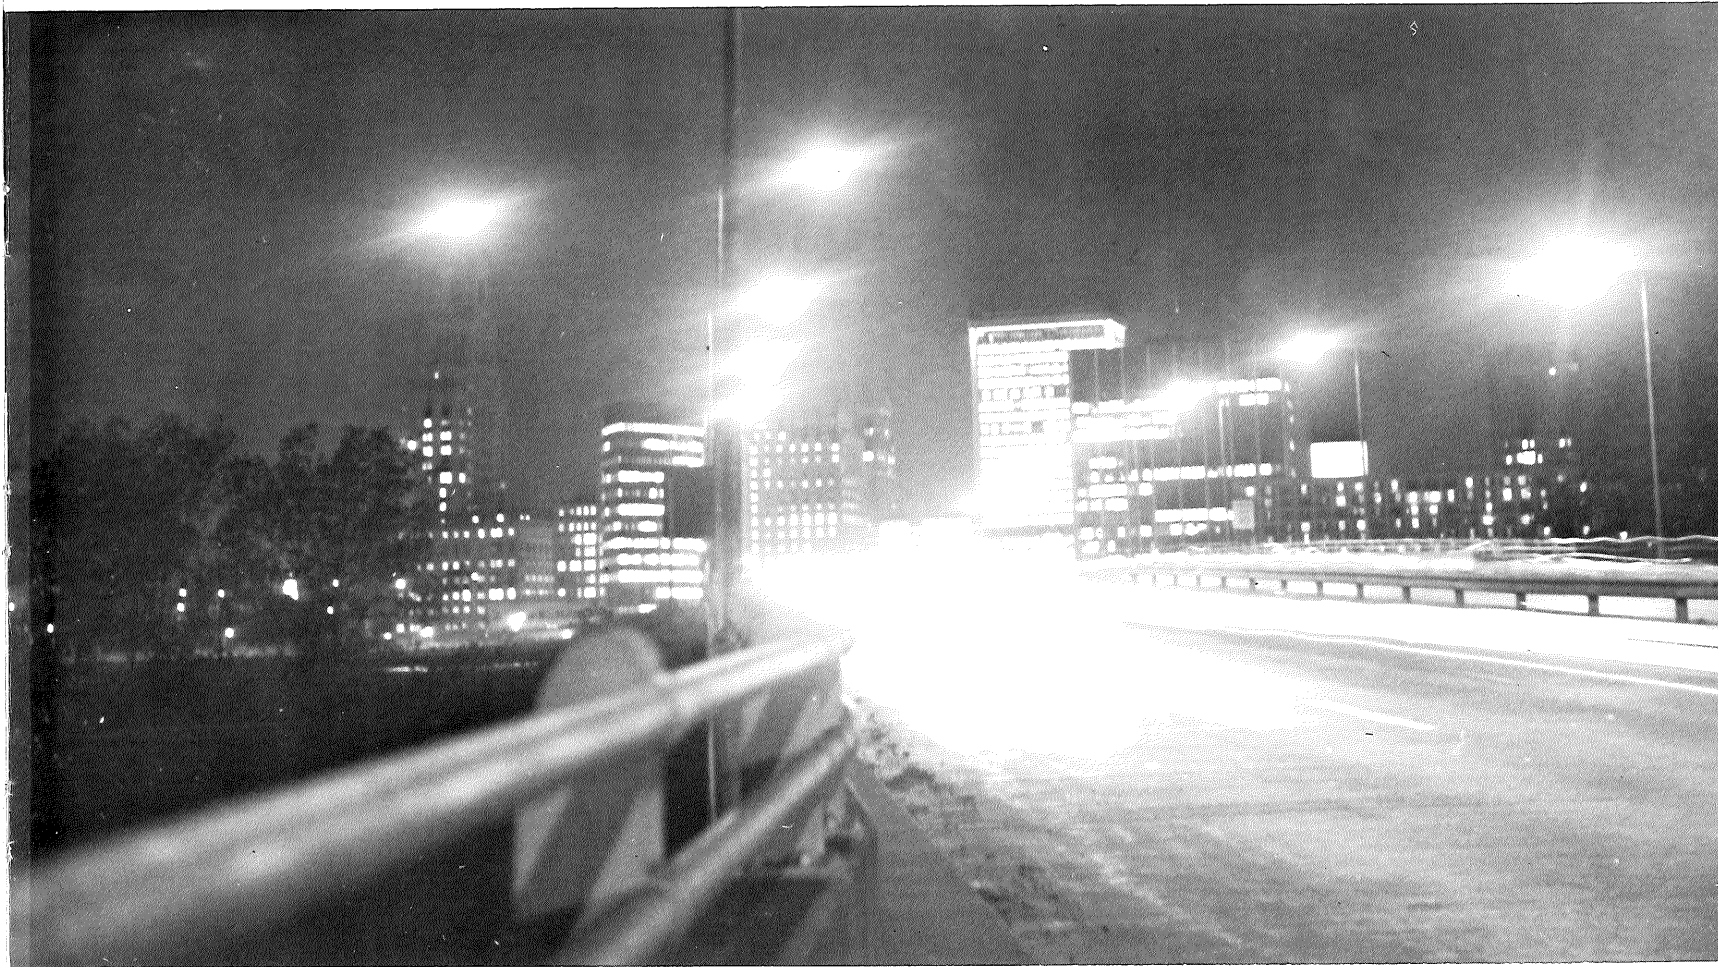

recognition is made . . . benefits are
gained . . . you hold your diploma

a time for peace . . .

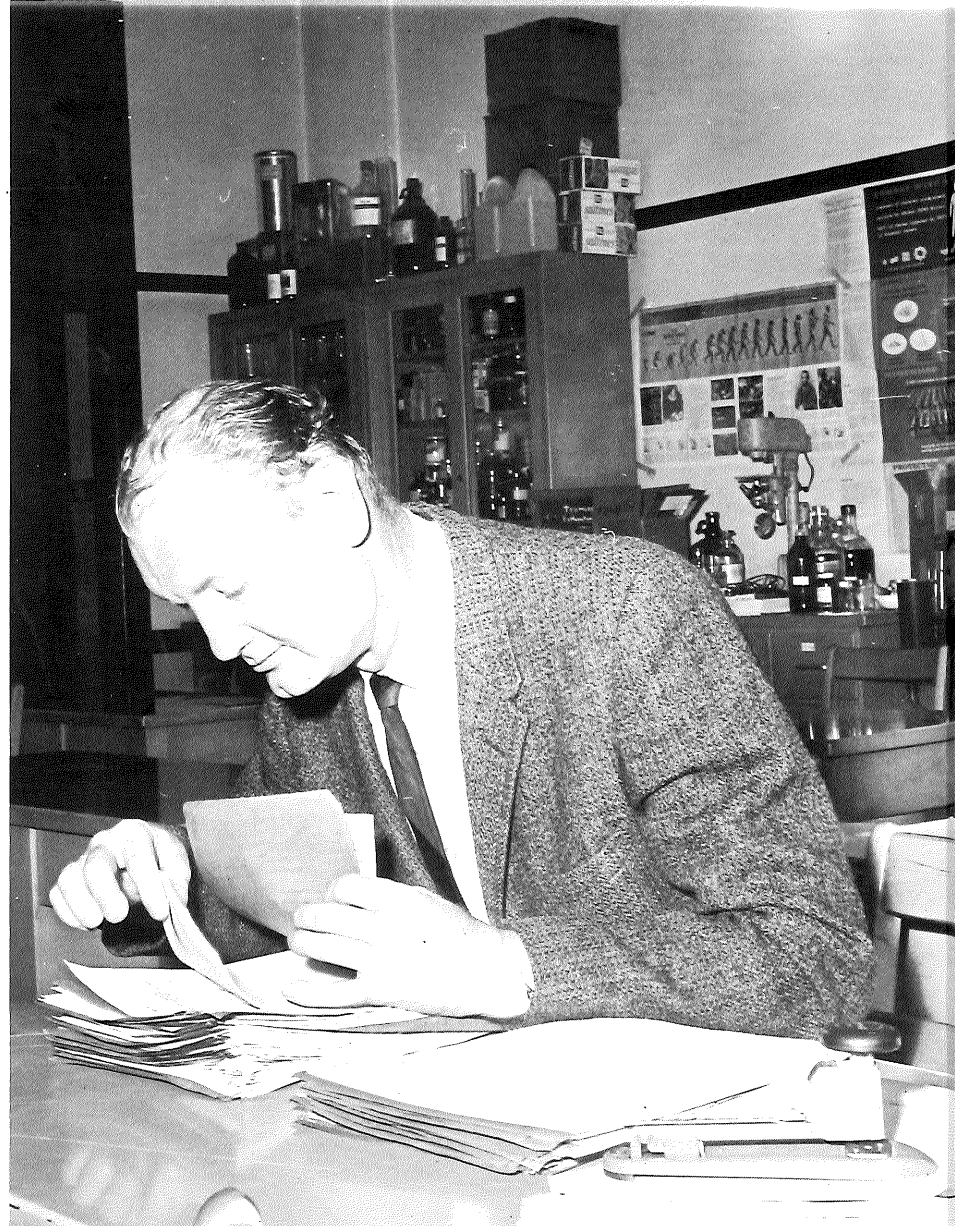

i swear it's not too late

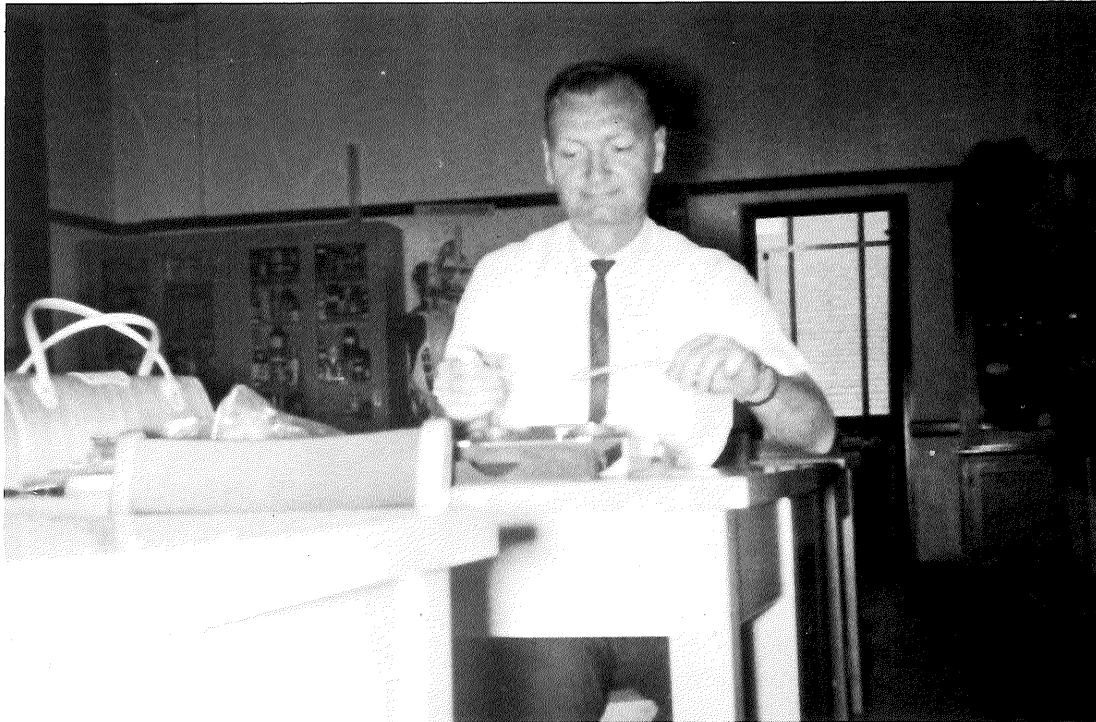

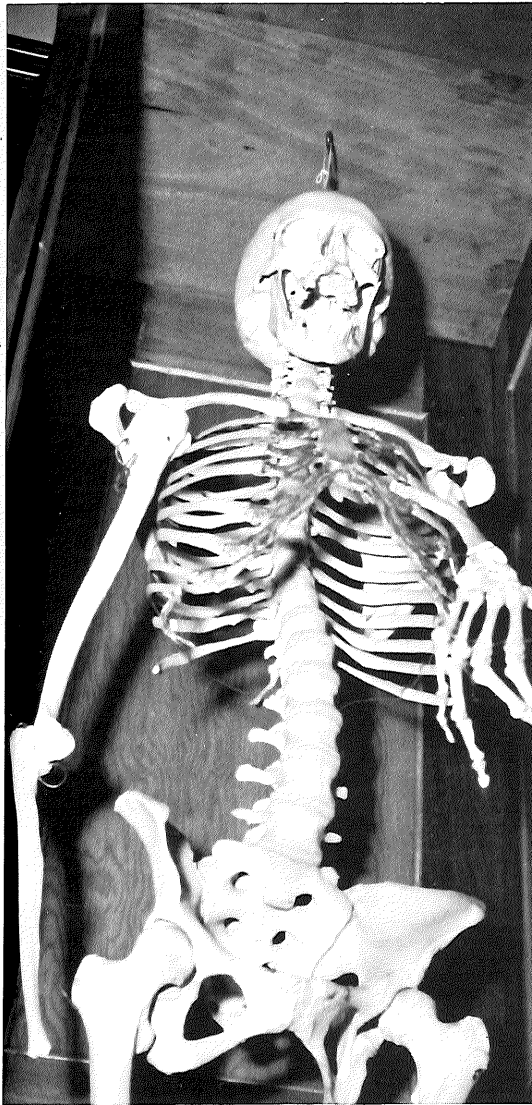

a time to speak

about one who cares and is
cared for . . .

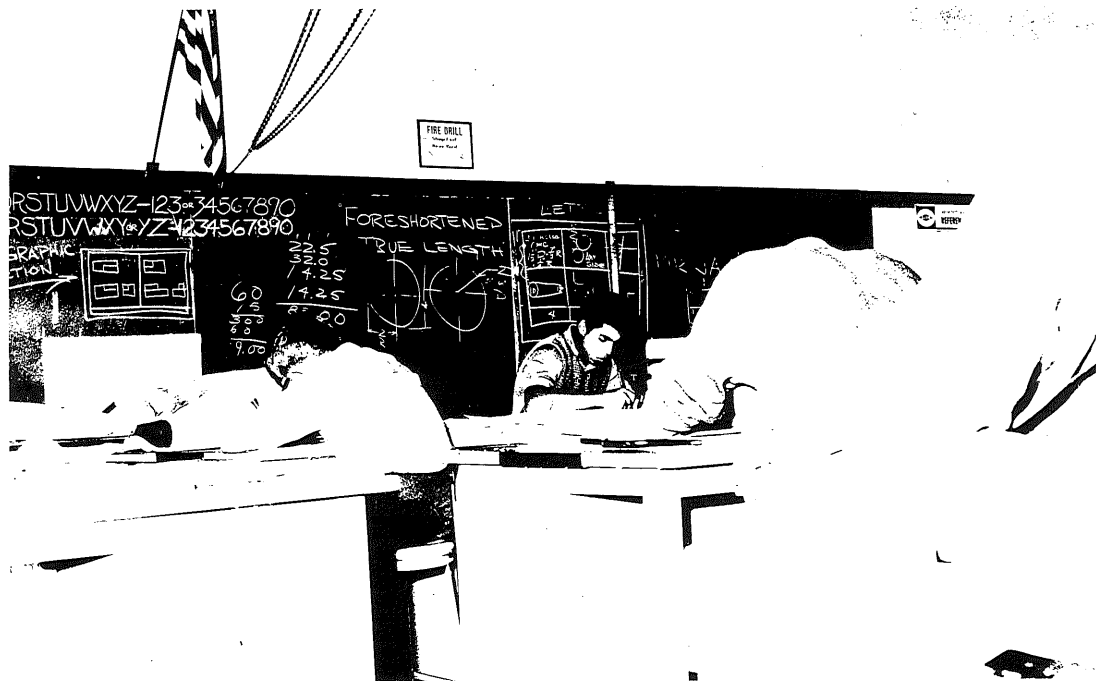

how often do you find a teach-
er . . . who is not only dedi-
cated to his profession . . .
as evidenced by his soon-to-be
published college biology text
. . . but can also boast of an
all-american basketball record
. . . and what about those
friendly bets he's always mak-
ing . . . or those pages and
pages of memory hints . . . ,
and his tootsie roll bank where
he keeps all his profits . . .
he even has a private food sup-
ply in his back room . . . in-
cluding prune juice and spinach
. . . supposedly for "testing"
purposes only . . .

... you'll always find him
at bulkeley basketball games
... he's official time keeper ... or you may meet him out
on the golf course ... or
whistling down the corridor on
his way to class ... he's
even been to florida ... where
he studied new teaching techniques ... and he suffers
from a common delusion ... he
thinks he has a talent for joke-
telling ... for example ...
"one exasperated biologist to
another ... what do you want
... blood ... no ... just
plasma" ... no one holds
this against him though ...
mr stopyra is the ideal person
... you may forget the dna
formula he taught ... but
you'll always remember the
teacher ...

mr stopyra ... you're quite
a guy

placing the blame

if it's snowing madly . . . and there's five feet of snow
on the ground . . . but the schools remain open . . .

don't blame the principal . . .

if the reading list calls for david copperfield . . . when
catcher in the rye seems more inviting . . . don't blame
the teacher . . .

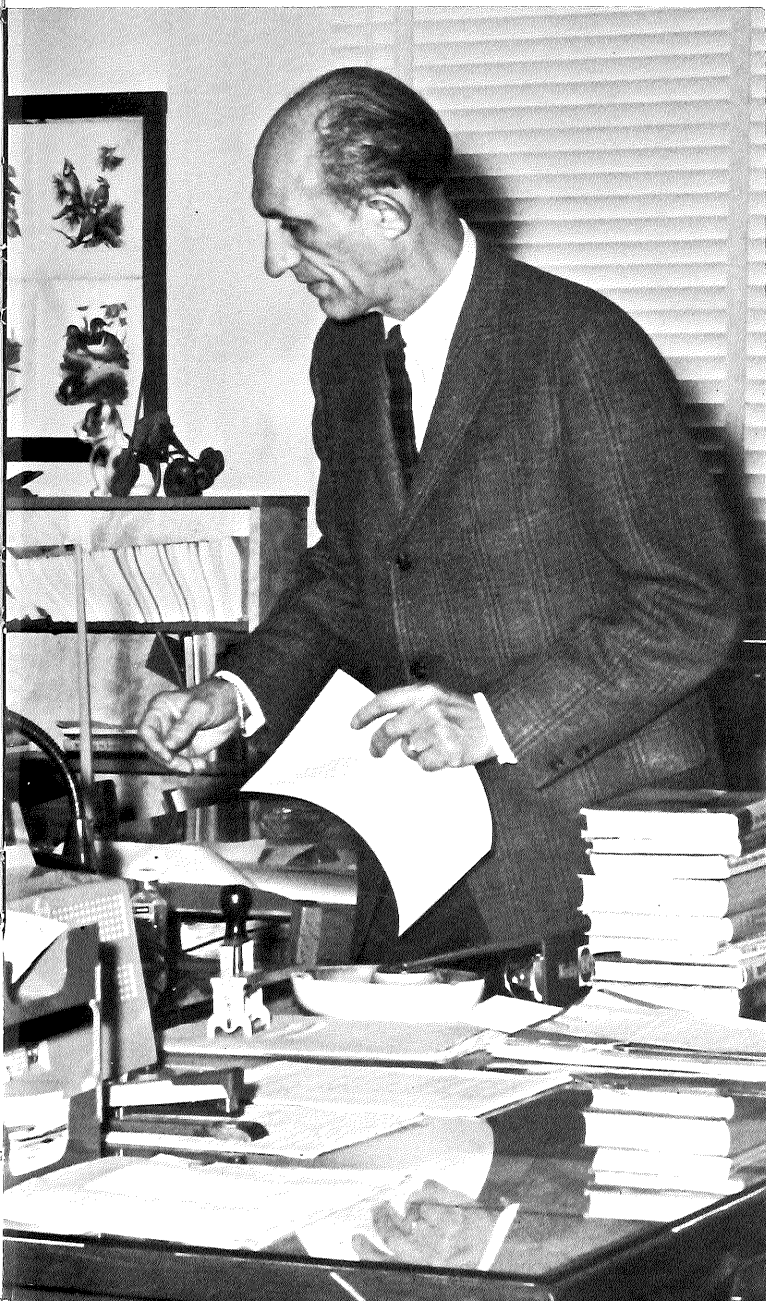

the board of education operating from their offices in
the archaic high street building is responsible . . . the men
and women of the board . . . devote their time and effort
to making the decisions that schools must abide by . . .
and take as much care in deciding what appetizing treat
will be on the menu . . . as they do in planning the
english curriculum

mr melrose establishes bulkeley's first "open door" policy

his first year at bulkeley as principal . . . friendly
 . . . fun . . . well-liked . . . his office always
 "open" to any and all students . . .
 many time consuming responsibilities . . . such as . . .
 general management of school and school
 organizations . . .
 reviews all college applications and transcripts . . .
 he's busy . . . but not too busy . . . to attend every
 student oriented function

*right marian lesniak and mitchell
ivanowsky . . . above student
and anita roche . . . top right
natalie phillips*

the familiar "ahem this is mr bashour
speaking" of past years . . . has given
way this year . . . to mr ivanowsky's
more declarative . . . "may i have your
attention please" . . . resounding over
the public address system . . .

this is just one variation in the role
that mr ivanowsky plays . . . as vice
principal of bulkeley . . .
though we may hear more from him . . .
some of us see less of him . . . for he
has been relieved . . . or is it deprived
. . . of dealing with the discipline of
female students . . .

this task now belongs to the dean of girls
. . . miss roche . . . who in addition
. . . is advisor to the 32 club . . .
and national honor society . . .
she left weaver with mr melrose . . .
and has come to bulkeley as an interested
. . . and capable . . . dean of girls . . .

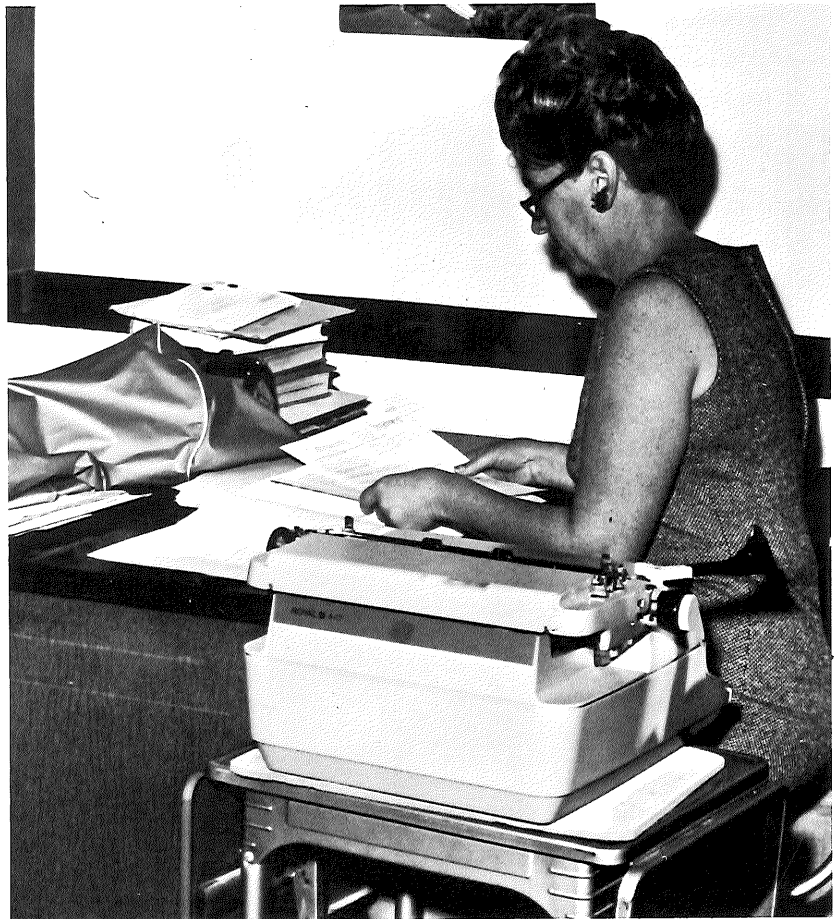

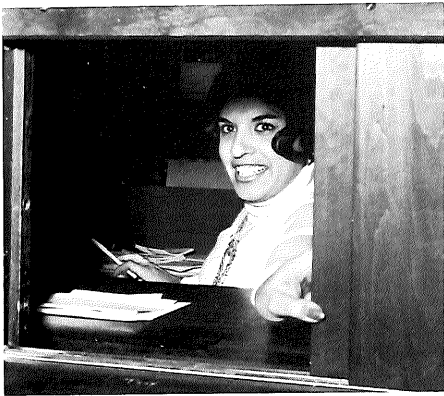

a change in roles and players

secs at bhs

some of the diligent workers at bulkeley . . . perform their duties faithfully . . . and gain little recognition in return . . .

among these . . . are the women of bhs who process our report cards . . . print our morning notices and absence lists . . . tally all those votes which pour in from class elections . . . organize our guidance records . . . and send off our college applications . . . accompanied by neatly typed transcripts . . .

they are the women behind the scenes . . . the secretarial staff . . . at the hub of bulkeley . . . who help make each day a smoothly functioning process

guidance motto . . . keep up with the times

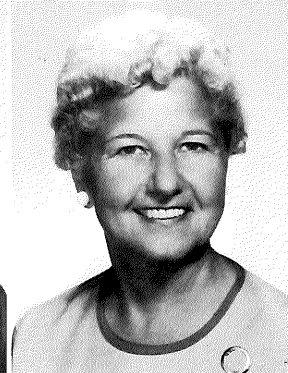

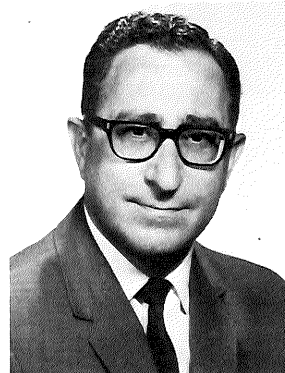

known to the students for its ever present helping hand . . . the guidance department is always willing to assist . . . whether it be bewildered freshmen or insecure seniors . . . unknown to the students . . . are the many new ideas that the guidance department is instrumental in introducing to bulkeley . . . a new emphasis on change and keeping with the times has prompted the guidance department . . . to initiate the resource period for individual instruction and enrichment . . . and to use the co-op committee as a vehicle for better relations between students and faculty

to the students . . .
in the two days that she is here . . . the
speech therapist utilizes various methods . . .
to cure speech impediments . . . including
the mirror technique . . .

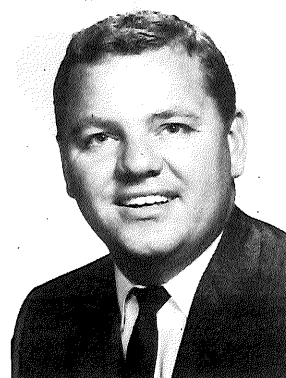

mr nisotis . . . a full time social worker
. . . helps students with emotional or social
problems . . . his job takes him out of school
. . . into homes . . . even into juvenile

from a cramped corner in the balcony . . .
mr whalen devotes his time . . . to finding
jobs for students on the work study program

films highlight humanities

while the grammar books lay on the shelf gathering dust . . .

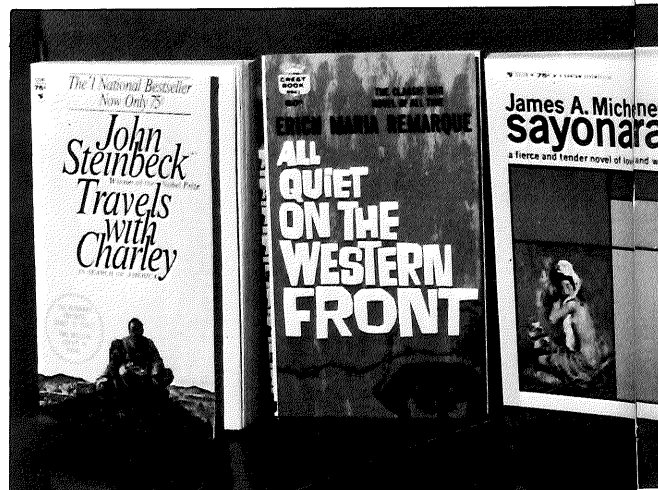

and the classics become still more ripened . . . the students in the humanities program . . . are enjoying current . . . controversial films . . . movies such as david and lisa . . . the making of a president . . . and a raisin in the sun . . . make the kienle room seem like a movie theater . . .

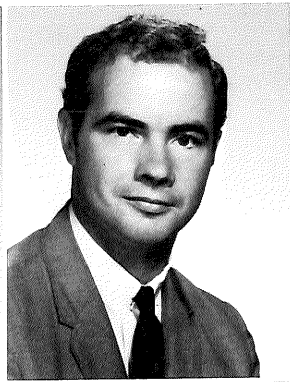

but . . . it's not all fun . . . the purpose of these films is . . . to make each student more knowledgeable about the individual's place in society . . . by making him more aware of . . . his stake in the civil rights movement . . . and our common american heritage . . .

math department always willing to experiment

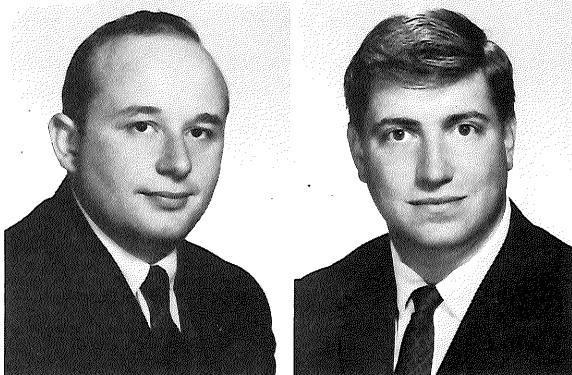

it's a new year . . . a time for new concepts
. . . especially in this department of complicated
rules . . . in the words of its department
chairman . . . "math is not a subject which
lends itself easily to change . . . and will
never change for the sake of change" . . .
even so there has been innovated the school
mathematics study group . . . and a reorganiza-
tion of teaching math . . . to make the study
of math more logical and practical

who cares about dates

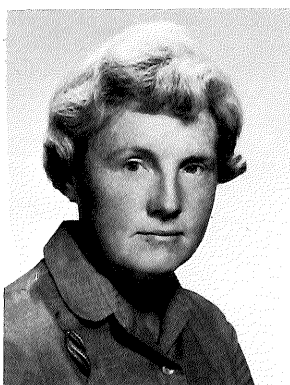

who defeated whom in 1588 ... what was written
in 1776 ... what war took place in 1812 ...
twenty years ago these details were important
... twenty years later mr brophy says ...
"who cares" ...

the history department ... which teaches
the various revolutions ... is undergoing a
revolution itself ... small details ...

dates ... unimportant places ... are
superceded by more important matters such as
... controversial issues ... and the causes
and effects of problems and wars ...
this new method of learning ... subordinates
memorization ... which is only temporary ...
to the solid permanence of reasoning

language courses gain popularity among students

the language department this year ... had to hire three additional teachers ... to meet the ever-growing demand of these students ... who wish to take italian ... french ... german ... or latin ... mais pourquoi ... why have all these students taken such an interest in language ... perhaps it's the use of new techniques and materials ... such as ... filmstrips and slides ... or the many trips the classes take to view a play ... or to hear a speaker ... at the end of the course ... the students may not be capable of speaking their particular language fluently ... but they will leave bearing new knowledge of a different language ... and country ... puoi parlare l'italiano

the now of the iad

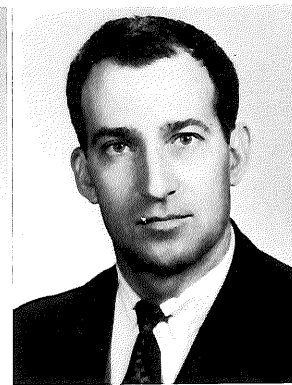

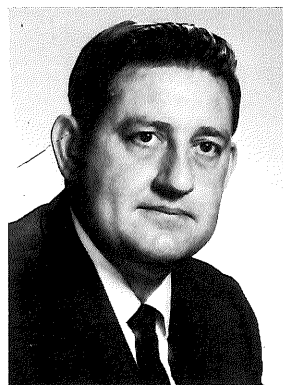

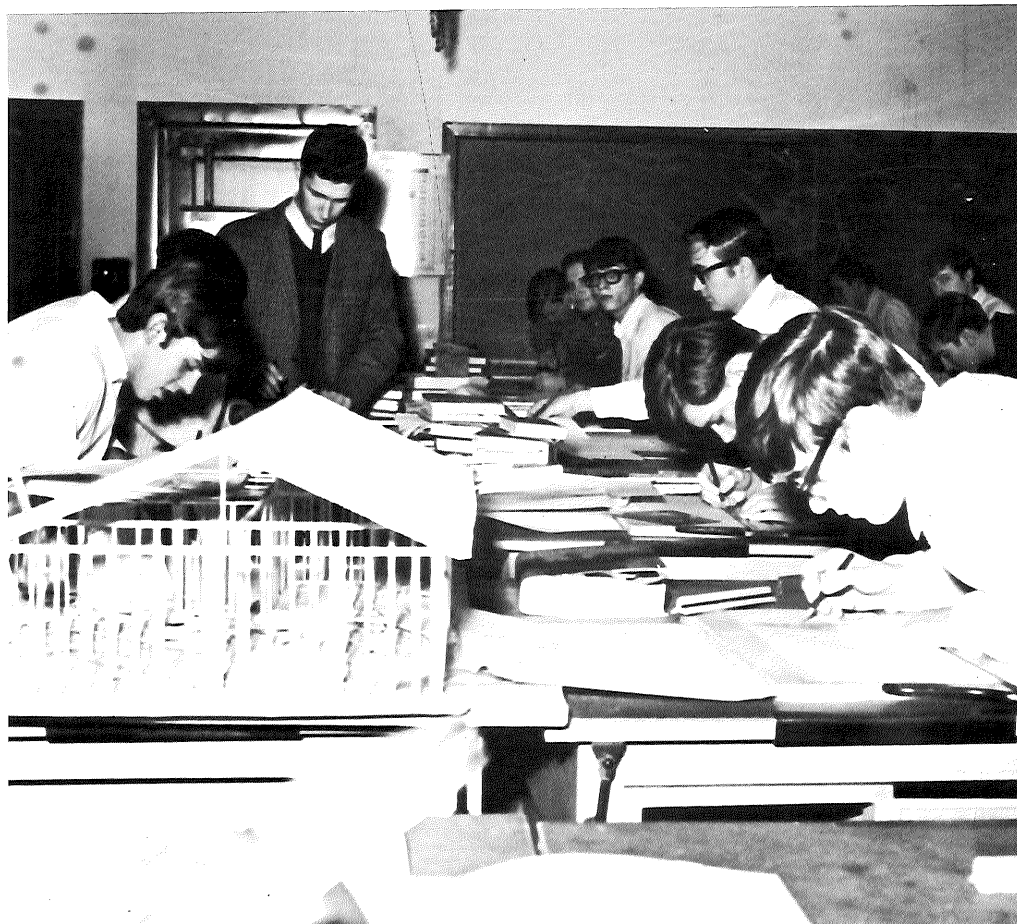

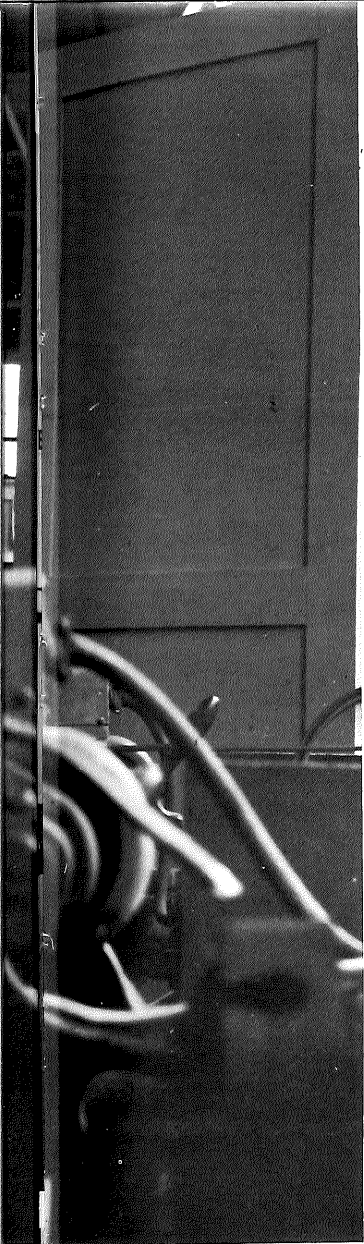

the students in this department never stop to ask . . .
"but when am i ever going to use what i'm learning" . . .

for the industrial arts department trains them for their
present employment . . . as well as for future occupa-
tions . . .

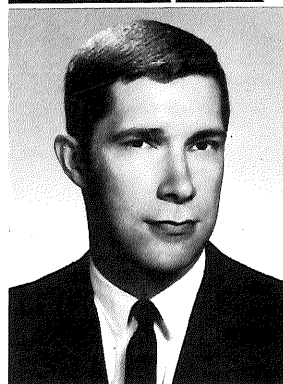

these students put their knowledge to use . . . and gain
satisfaction . . . by making furniture in the general
woods department . . . planning for a future home in the
drafting department . . . printing material in the graphic
arts department . . . or "going creative" in the general
metals department . . .

the classes offer tangible training and education to their
students . . . and meet their practical needs . . . the
students' enthusiasm and pride in these classes . . . is
reflected in their newspaper . . . which keeps the faculty
and student body informed of the happenings in ia . . .
the drafting and general woods departments are co-ed . . .
and although many girls have taken advantage of this . . .
the odds are still in their favor

"there is nothing like music"

are you interested in song writing
... then music theory is the course
for you ... it provides training
in the do's ... and don'ts ...
of good musical composition ...
other courses in the music department
include music appreciation ... it
familiarizes you with many styles
of music ... and music literature
... syncopation becomes a meaning
... rather than just a word ...
in the words of the department chair-
man ... "there is nothing like music
to give one pleasure ... stimulation
... and pep ... to combat life's
problems"

all is busy for an hour . . . then students gradually return to their home rooms . . . where they sit poised . . . ready to leap at the sound of the bell . . . and make their way through the halls . . . to their first period class

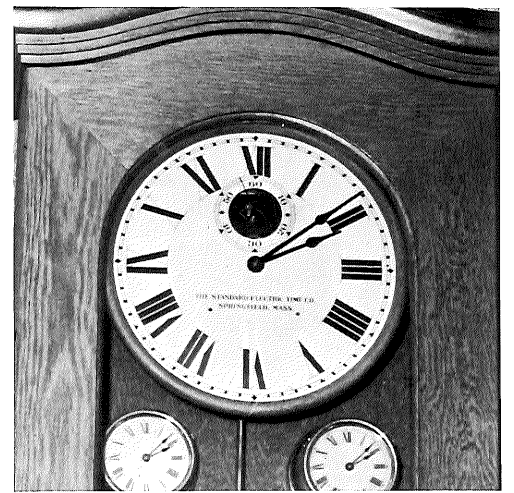

attention lags . . . a student naps in study hall . . . another
stares out the window . . . daydreaming . . . others stir in rest-
less anticipation . . . the rhythmic thump of a basketball is broken
by girlish shouts of excitement . . . as they try for baskets . . .

in the quiet of the library a stomach growls . . . the hands of the clock
turn slowly toward fourth lunch . . . and then . . . suddenly . . .

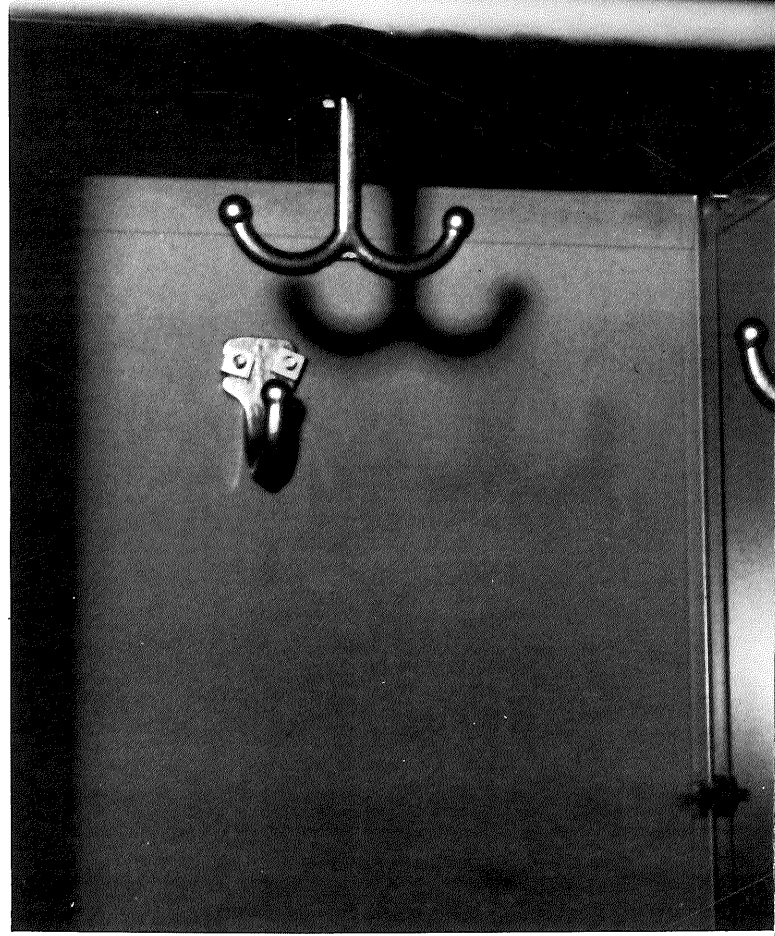

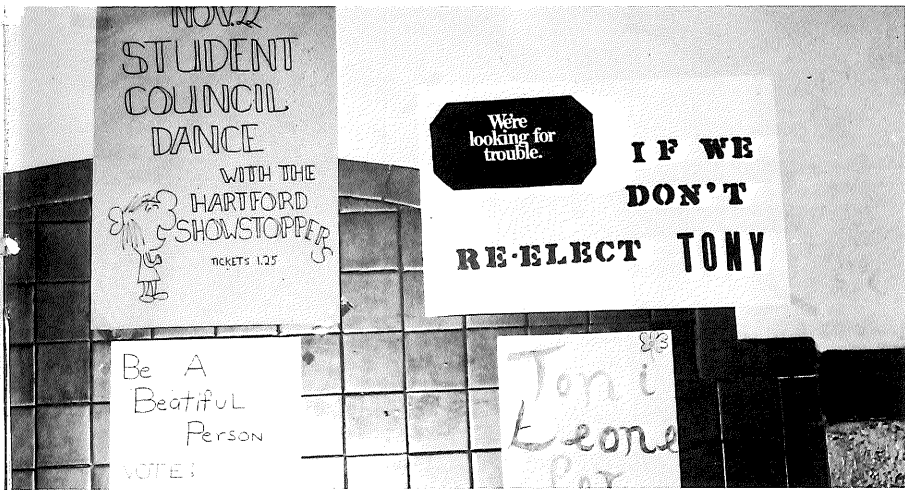

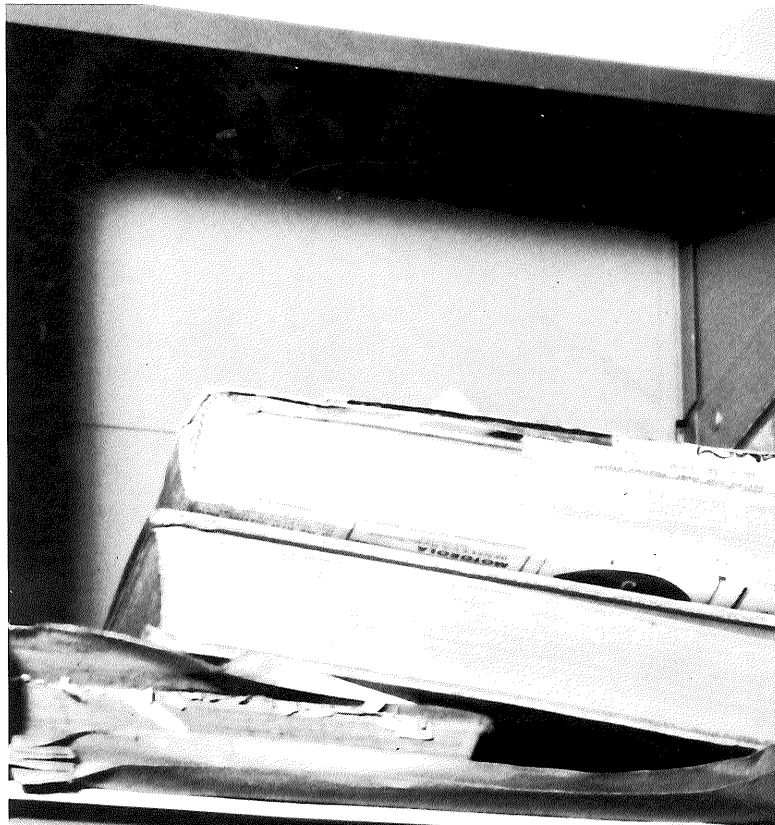

hungry students swoop down on the cafeteria . . . invade the lunch lines . . . and crowd the tables . . . some eagerly devour their food . . . hoping to pass time in the rear yard . . . if the weather is good . . . others eat leisurely . . . more intent on good conversation than satisfying food . . . jcc posters line the halls as students pass . . . collect afternoon books at their lockers . . . or sign out on work study . . . others leave after 5th period . . . a happy relief from sixth period study

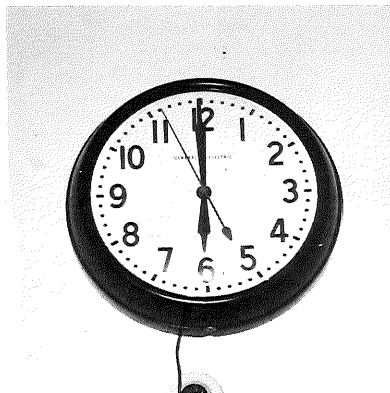

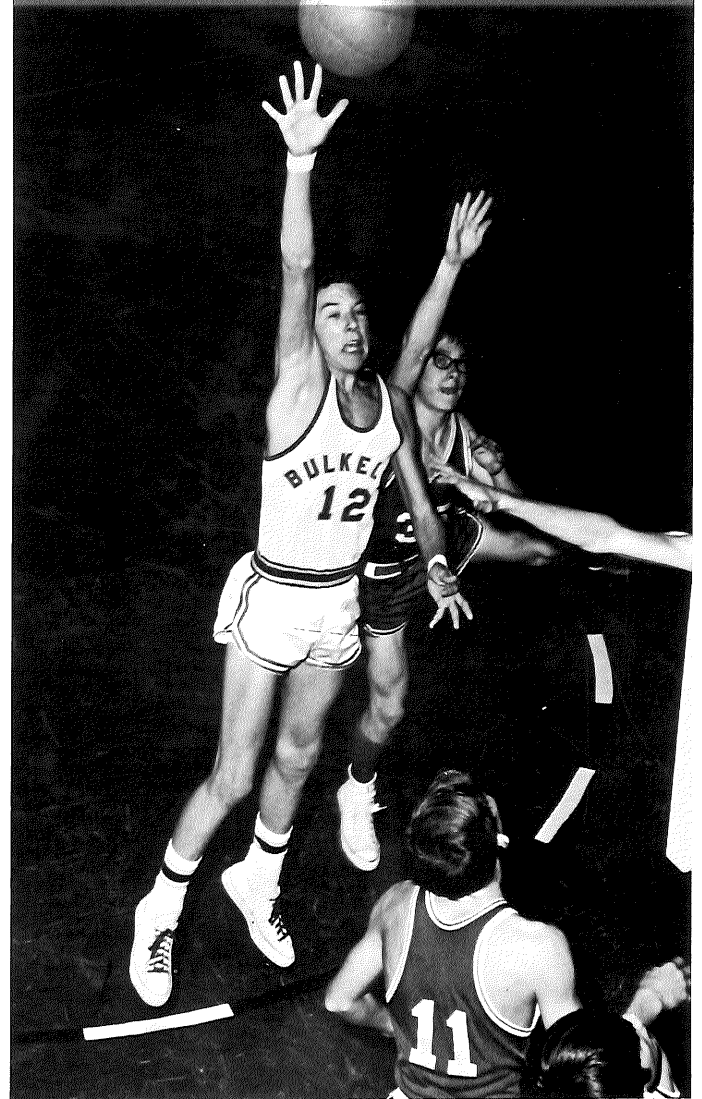

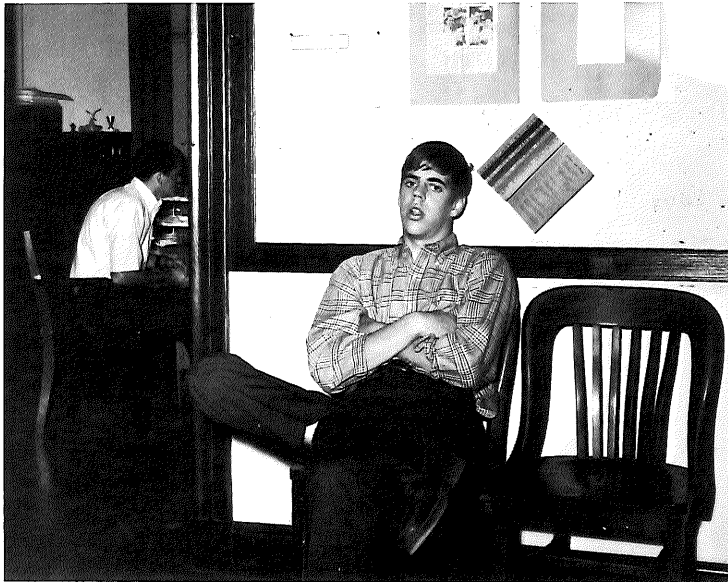

the majority of students . . . however . . . must wait for the 2:06 dismissal bell . . . after which they frantically grab coats and books from lockers . . . and surge out into the fresh air

Biafra:

Born Out of Crisis

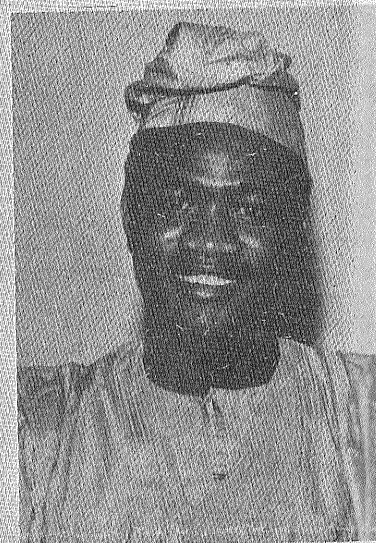

by CHARLIE UNAKA

(Charlie Unaka, a 2nd-year student at G.H.C.C., was born in Biafra and attended the school at Aba City. He came to America in October, 1966, and plans a major in marketing. Ed. Note)

Biafra is a nation born out of crisis in Nigeria. Located in the eastern part of Nigeria, the country had a population of about 15 million people, until a genocidal action was pronounced against them in which many were massacred and were decapitated.

Many bled to death after their arms, legs and testicles were chopped off. Pregnant women had their bellies ripped open. Boys and old men had their eyes gouged out."

The government seat of Biafra is at Enugu, a hilly region similar to Switzerland. The natives are all dark-skinned, with different tribes who exhibit different ethnic, cultural, and language traits. The distribution of these languages follows a certain pattern. In the areas where people of one tribe have free communication with the neighboring tribe, a common

Charley Unaka displays national dress of his revolution-to-country.

Biafra's economy is based on agriculture. Most of the people earn their living by farming. Now the new country is facing a war of extermination for the Nigerians and a war of SURVIVAL for the Biafrans.

Conard Students Hold Inter-City Exchange

As part of its comprehensive school cafeteria, observed ex-Core-City Program sponsored tra-curricular and club activities, and engaged in an exchange of ideas with their fellow students. Government, a two day inter-city student exchange program was held at Conard this week.

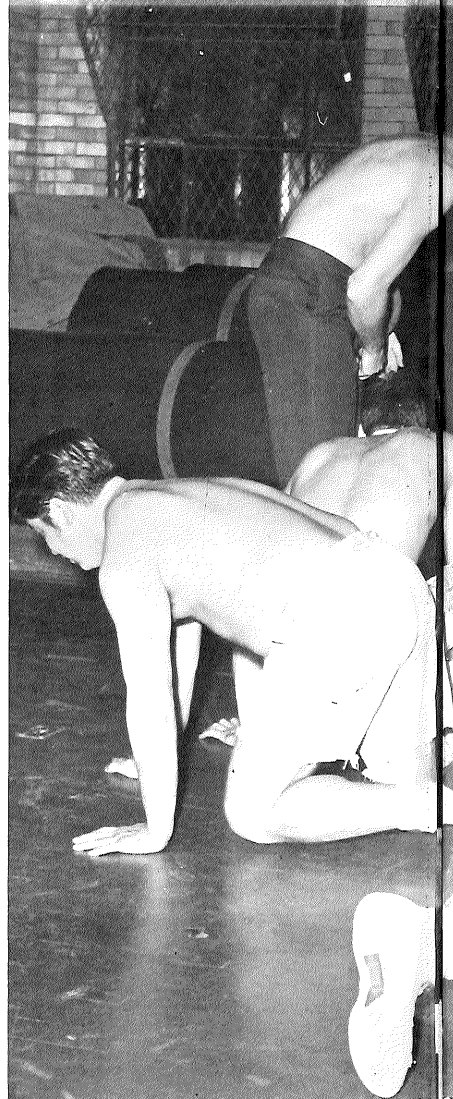

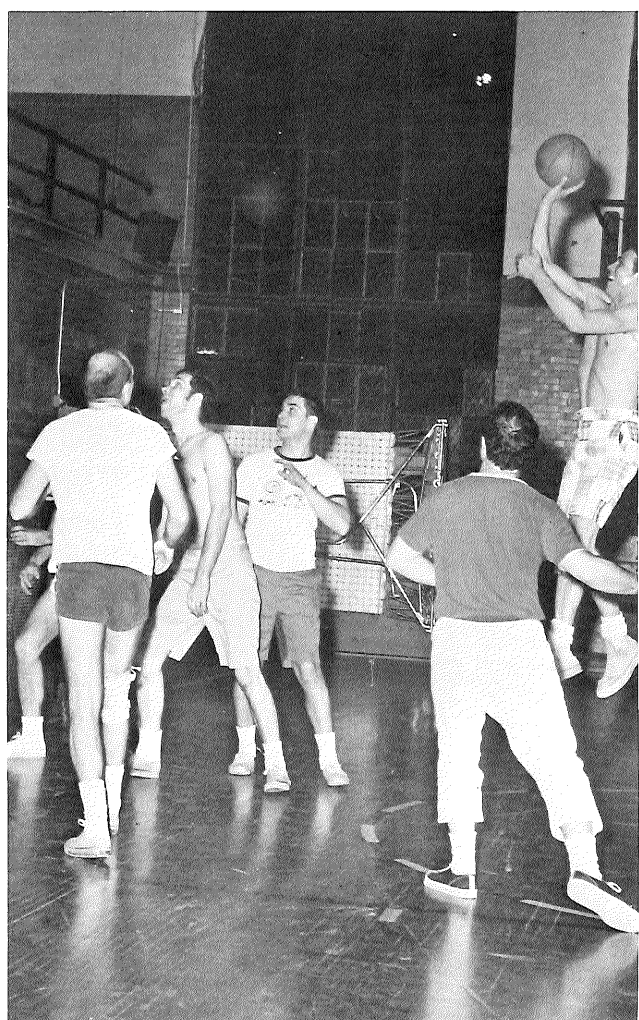

To assess the merits of the program, which has been highly successful in the past, an evaluation session and reception was held at the conclusion of the two-day experiment. First initiated two years ago, the program involves students visiting back and forth between Hartford high schools and Conard. While some students from each city participated merely on a day-to-day basis, several others were entertained as overnight guests in each community. From Bulkeley High School—Rebecca Garcia, Anna Calaflore, Al Phillips, Paul Bongiovanni, Ed Gudewitz, and Susan Leshay.

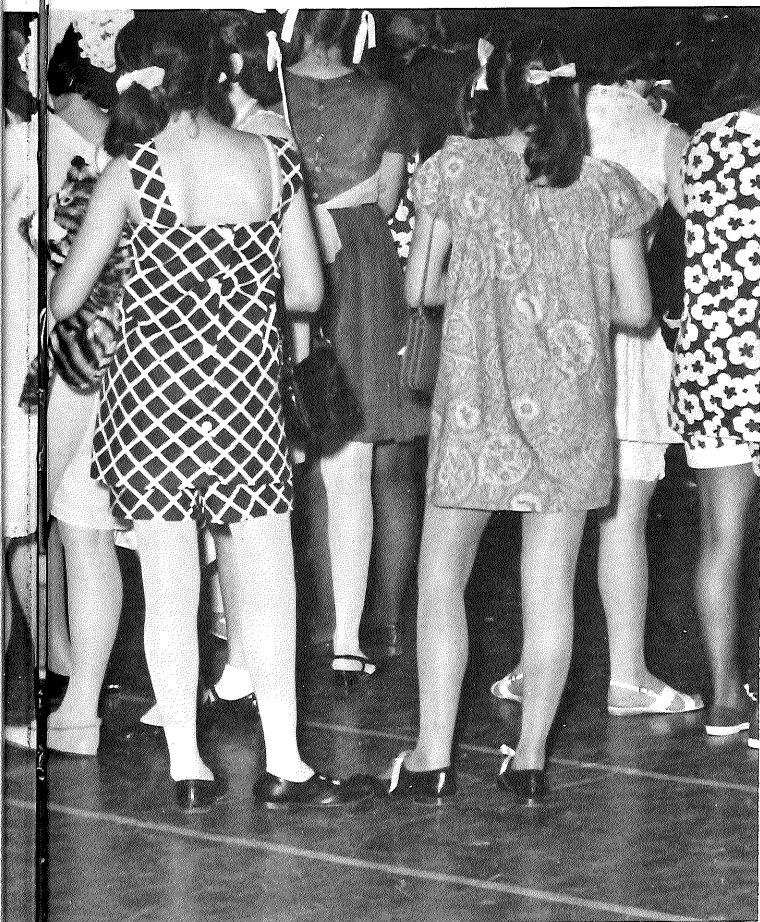

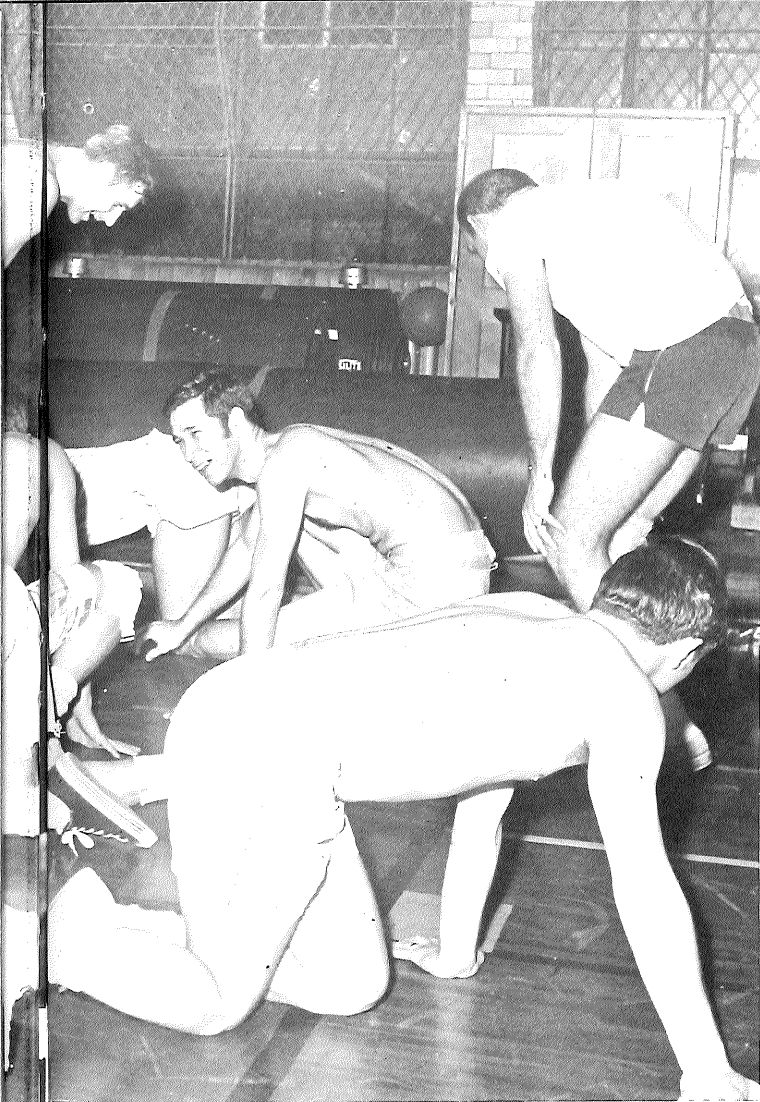

Students visited classrooms, were guests at lunch in the

A black and white photograph of four students in a school cafeteria. A boy with glasses is smiling at a girl with short hair. Another girl with long hair is standing and talking to them. A fourth student is partially visible on the left. In the background, there are signs for 'MEAT SKID RAMP' and 'VEAL CUTLET'.

to everything there is a season . . .

spring and summers bid hellos and farewells . . . still
the cycles of life revolve . . . learning . . . growing
. . . reaching . . . and then again . . . learning . . .

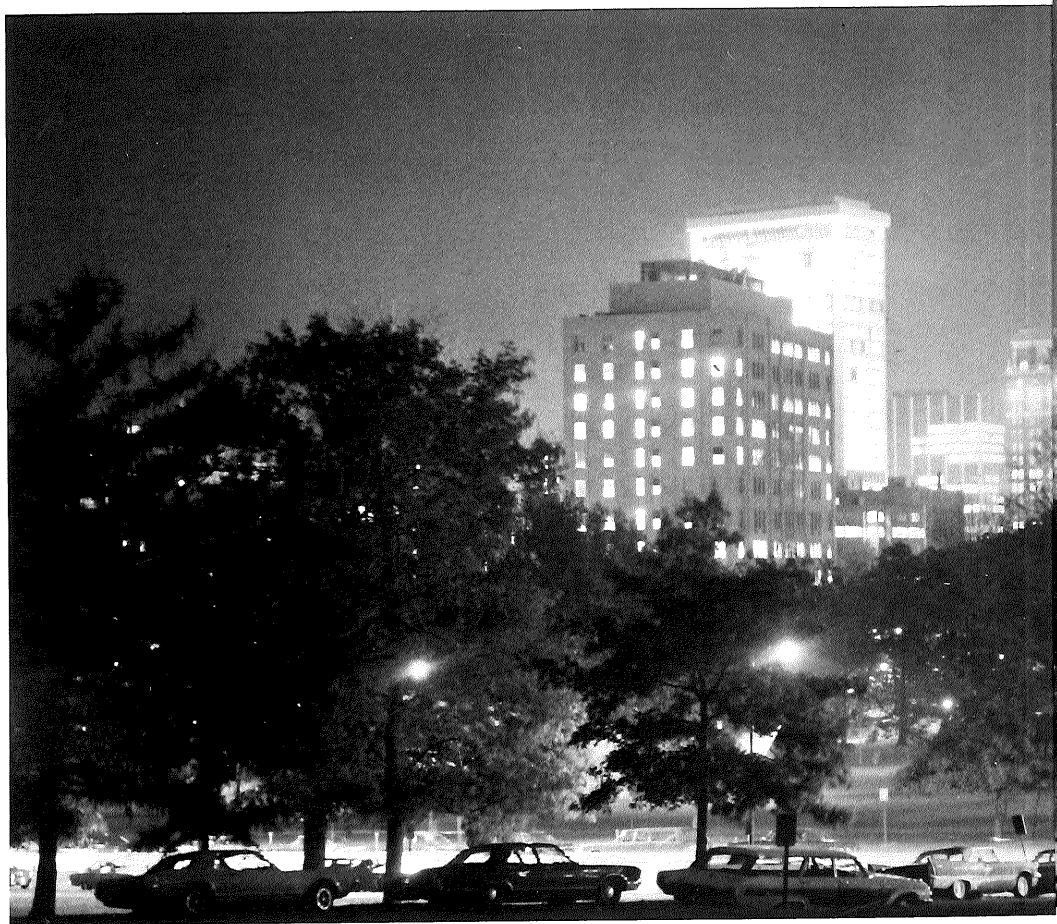

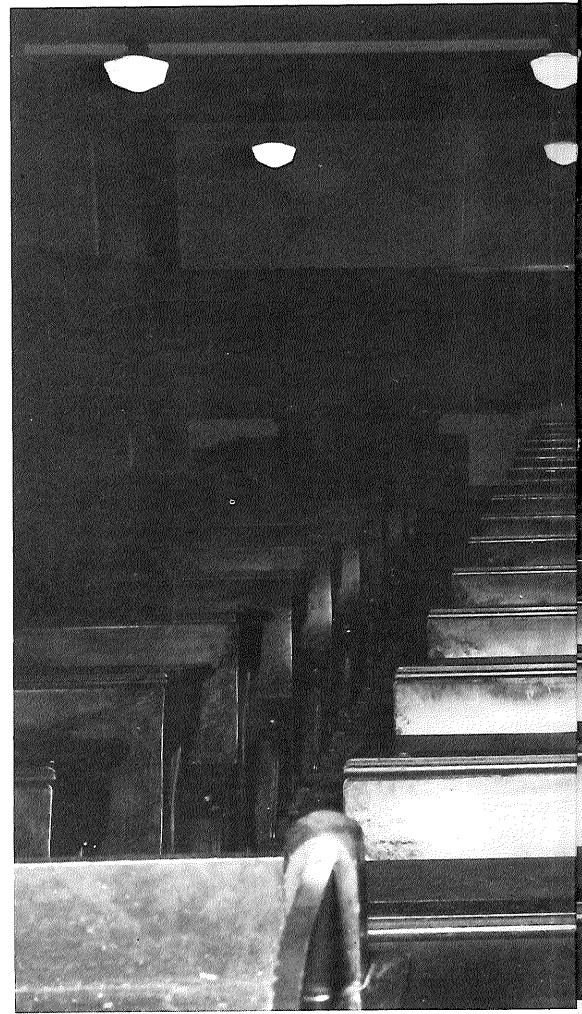

we grasp hands warmly . . . but the warmth . . . soon forsakes us . . . leaving our hands not only empty . . . but cold . . . until another hand finds ours . . . not so our minds . . . every moment . . . new warmth stimulates our thoughts . . . a look . . . a word . . . a gesture . . . each second . . . we experience a rebirth . . . and so . . . each memory . . . by each second's life . . . is reborn . . . never dying . . . only expanding . . .

and a time for every purpose under heaven . . .

events and plans of now . . . foreshadow the bloom of tomorrow's thinking

“. . . and know that yesterday
is but today's memory . . . and
tomorrow is today's dream . . .”

and let today embrace the past
with remembrance . . . and the
future with longing”

from the first page to
this . . . we as a staff
. . . attempted to re-
cord this school year . . .
as completely as possible
. . . each page becoming
a part of the past it has
recorded . . .
to this end all have worked
. . . as part and whole
. . . doing more than
was expected . . . con-
stantly . . . willingly
. . .
behind us . . . pushing
. . . in front of us . . .
leading . . . has been
our advisor douglas ross
. . .
to him and them . . . with
whom i've worked with so
much pride and pleasure
. . . in editing this
. . . our book of nine-
teen sixty-nine . . .
give thanks
